FOR YOUR NEXT PROJECT

# PREP, STAIN & PROTECT

# PRE-STAIN CONDITIONER

## Three Easy Steps to a Beautiful Finish

### Prep

Pre-Stain Wood Conditioner properly prepares interior bare or stripped wood surfaces for staining.

### Stain

Wood Stains create vibrant colors that enhance the natural beauty of wood.

### Protect

Clear Finishes provide a hard, durable topcoat that resists abrasion, marring & scratching on interior and exterior surfaces.

- Prepares Wood Surfaces for Water-Based Staining
- Helps Promote Even Staining
- Seals Soft Wood for a Uniform Color

## Helps Prevent Streaks & Blotches

Wood rarely absorbs stain evenly. To minimize this difference and to reduce the blotchiness that can occur when staining, brush on a coat of BEHR Water-Based Pre-Stain Wood Conditioner after removing the sanding dust, but before you apply your stain.

# CLEAR FINISHES

# SHEEN GUIDE

## Fast Drying Polyurethane

- Durable Crystal Clear Protective Finish
- Recoat in 1 Hour
- Resists Stains & Scratches
- For Interior Wood Surfaces

## Spar Urethane

- Durable Crystal Clear Protective Finish
- Fortified with UV Inhibitors
- Water Resistant Finish
- For Exterior & Interior Wood Surfaces

Coffee Table: Dark Walnut B4502,  
Semi-Gloss Clear Polyurethane

## Choose the Right Sheen

When choosing a sheen, consider all aspects of the project: look, function, and durability.

Matte finish has very little sheen and can help hide imperfections and keep surfaces looking better longer.

Satin is a traditional choice for a natural appearance.

Semi-Gloss is the perfect combination of natural beauty and durable performance.

Gloss is the premium choice for a lustrous finish with added depth and brilliance.

\*Matte finish not available in Spar Urethane.

# STAIN & POLY IN ONE

- Delivers Rich Color & Protection in One Easy Step
- Can be Used Over Polyurethane Finishes
- Easy Water Clean-Up
- \* Available in 60 Custom Colors
