Appearance after 6 years

Appearance after 9 years

Specs

Resists cracking Yes

Resists color change Yes

Resists dirt Yes

Resists mildew Yes

CRs Take

This Home Depot paint includes a work-saving, built-in primer. Impressive appearance after the equivalent of nine years outdoors is also part of the package, as is resistance to cracking, color change, dirt and even mildew. With a claimed 50 grams per liter of volatile organic compounds (VOCs), it's well below the federal limit—but meets the 50-gram/liter limit in parts of California.

About

The Behr Premium Plus Ultra Exterior (Home Depot) is part of the Paint test program at Consumer Reports. In our lab tests, Exterior paint models like the Premium Plus Ultra Exterior (Home Depot) are rated on multiple criteria, such as those listed below.

Appearance after 3 years: Appearance after three years summarizes performance after one year of our accelerated weathering (i.e. equivalent to three years on a vertical wall).

Appearance after 6 years: Appearance after six years summarizes performance after two years of our accelerated weathering (i.e. equivalent to six years on a vertical wall).

Appearance after 9 years: Appearance after three years summarizes performance after three years of our accelerated weathering (i.e. equivalent to nine years on a vertical wall).
