

INTERIOR

SCUFF DEFENSE™

FLAT PAINT THAT'S TOO TOUGH TO SCUFF.

BEHR ULTRA® SCUFF DEFENSE™ Interior Extra Durable Flat Paint sets a new standard for flat paint durability. SCUFF DEFENSE features breakthrough innovation to deliver a rich flat finish that is truly durable enough for high-traffic areas. Don't settle or compromise between the flat look you desire and higher level of durability you require.

LOOK OF A FLAT. DURABILITY OF A GLOSS.

BEHR ULTRA® SCUFF DEFENSE™ KEY FEATURES AND BENEFITS

Advanced Scuff & Mar Resistance

Provides a durable finish for high-traffic areas

Exceptional Burnish Resistance

Holds up to frequent cleaning without showing noticeable increase in gloss or sheen

Excellent Stain-Blocking Properties

Prevents most stains from coming through the painted surface

Paint & Primer⁰ Formula

Removes the step of using a separate primer

Antimicrobial-Mildew Resistant Paint Finish

Provides effective protection from mold and mildew on the dried paint film

MPI Approved in Extra Durable Flat, Eggshell, Satin & Semi-Gloss Sheens

Meets performance and environmental requirements of commercial specifications

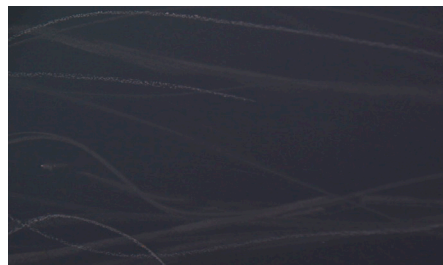

Low VOC (< 50 g/L excluding colorants)

Meets the most stringent VOC regulations nationwide

⁰A primer coat may be needed on some surfaces. See Technical Data Sheet (TDS) for details.

Ideal for use on high-traffic areas in residential and commercial settings.

HOW SCUFF DEFENSE DIFFERS FROM CONVENTIONAL FLAT PAINTS

CONVENTIONAL Flat Paint

BEHR ULTRA® Scuff Defense™

Selecting the ideal sheen for a paint project involves important aesthetic and performance considerations.

- Conventional flat paints are non-reflective, great at hiding surface imperfections and easy to touch-up, but are prone to burnishing and scuffing.
- Higher sheen paints tend to highlight surface imperfections and are more difficult to touch-up, but stand up well to burnishing and scuffing.

BEHR ULTRA Scuff Defense offers the best of both worlds—the non-reflective appearance of a flat paint with the scuff and burnish resistance of a higher sheen paint.

The above test examples are photographs of the actual results. The actual results may be viewed by appointment at Behr Process Corporation.
