**Barn & Fence Paint**
- **Durable Exterior Oil-Latex Formula**
- **Livestock-Safe**
- **Lead Free**
- **Self-Priming**
- **Ready-to-Use**
- **Mildew Resistant Finish**
- **Easy Water Clean-Up**

**WHERE TO USE**

Smooth or rough-sawn exterior vertical wood surfaces such as: Plywood, Fences, Shingles, Shakes, Siding and Laminates.

*Not for use on horizontal surfaces subject to foot traffic.*

*Dry film will not harm livestock.*

**PREPARATION**

(Proper surface preparation is required.) Remove stains caused by mold and mildew with a mold and mildew stain removing product.

Previously painted, stained or clear sealed wood: Sand all glossy surfaces. If surface is in good condition, apply directly over clean, dry surface. If the latex or oil-based finish has started to crack, peel or flake, use a product such as BEHR PREMIUM® NO. 64 Wood Stain & Finish Stripper on wood to remove the coating. Rinse thoroughly. Follow with a product such as BEHR PREMIUM NO. 63 All-In-One Wood Cleaner. Scrub, rinse, and allow to dry completely.

New, weathered, pressure treated or uncoated wood: Place cloth duct tape in random areas on the bare wood. Press the tape firmly then quickly remove it. If wood fibers or debris are pulled onto the tape, the wood surface is not sound and additional preparation is required as follows: Clean surface with a product such as BEHR PREMIUM NO. 64 Wood Stain & Finish Stripper. Rinse. Follow with a product such as BEHR PREMIUM NO. 63 All-In-One Wood Cleaner at full strength to remove mill glaze and/or loose wood fibers, dirt and other debris. Rinse and allow to dry.

**APPLICATION**

Use when air and surface temperature are 50-90°F (10-32°C). Do not apply in direct sunlight or if rain is expected within 24 hours.

Wood surfaces must be completely dry. When working with more than one container of the same color, intermix to ensure color uniformity.

Redwood, Cedar, Cypress and other “bleeding” woods contain water soluble extractives which may cause discoloration of white and pastel colors; therefore prime the above type woods with one coat of a product such as BEHR PREMIUM PLUS® NO. 436 Exterior Multi-Surface Primer & Sealer to reduce these stains. Apply with a nylon/polyester brush or roller brush. On rough-sawn or textured wood apply with a 3/4” long nap roller or high quality airless sprayer. For airless spraying use a .015” tip. Keep a wet edge to reduce lapping and help control color uniformity. Always back-brush or back-roll during all application methods. Two coats may be necessary for complete hiding. Apply the second coat only after the first coat has thoroughly dried.

**DRIY TIME**

Longer dry time required in cooler temperatures and higher humidity.

**DISPOSAL**

For disposal of empty containers and unused paint, contact your household refuse collection service.

**WARNING!** If you scrape, sand or remove old paint, you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a NIOSH-approved respirator to control lead exposure. Clean up carefully with a HEPA vacuum and a wet mop. Before you start, find out how to protect yourself and your family by contacting the National Lead Information Hotline at 1-800-424-LEAD or log on to www.epa.gov/lead.

**WARNING!** Sanding or scraping pressure treated lumber may be hazardous; wear appropriate protection
