CAUTION: Finished surfaces may become slippery when wet.

WHERE TO USE

“For Wood Substrates Only” Recommended for properly prepared new to slightly weathered, unsealed exterior wood surfaces (0-5 years exposure) such as: Decks, Railings, Shakes, Shingles, Siding, Roofs, Fences and Wood Patio Furniture.

PREPARATION†

(The following steps and products are required.) Use a product such as BEHR PREMIUM® No. 64 Wood Stain & Finish Stripper to remove loose wood fibers, latex, oil-based and 100% acrylic coatings on new or weathered wood. BEHR PREMIUM No. 63 All-In-One Wood Cleaner MUST be used following No. 64 to clean, brighten & neutralize wood. When No. 64 is not needed, use a product such as No. 63 to clean and brighten the wood surface and to remove light to medium exterior stains caused by mold, mildew, algae & fungus. On new wood, use a product such as No. 63 to remove mill glaze and open the pores of the wood. Rinse thoroughly and allow to dry before coating. Lightly sand to remove remaining wood fibers/fuzz.

APPLICATION

(For best results, a pad applicator is recommended over large deck areas.) Must apply between 35-90˚ F and temperature must stay above 35˚ F for the next 12 hours. Coating will resist rain after 4 hours. The wood surface must be completely dry before application. Intermix multiple containers to ensure color uniformity. DO NOT THIN the paint. A sprayer with a .015 - .019” (60 mesh filter) tip may be used. Work in small sections lightly saturating the surface and immediately back-brush or use pad applicator to eliminate puddling, remove excess and evenly distribute the finish. Maintain a wet edge when applying. Apply product end-to-end or to board lengths to prevent lap marks. Over application of finish will lead to surface failure including peeling and cracking. Avoid applying finish too heavily. Two thin coats required. For optimum performance, coat all six sides of wood.

LIMITED WARRANTY

Behr Process Corporation warrants customer satisfaction with this product for 6 years on vertical surfaces and for 4 years on horizontal surfaces from date of purchase, when applied to a properly prepared surface according to label directions. Color fading and natural graying of the wood may occur during this period, especially in areas exposed to heavy foot traffic or excessive weather. If you are not satisfied with this product, Behr Process Corporation will, at its option and upon proof of purchase, either furnish an equivalent amount of new product or refund the purchase price. This warranty is made to the original residential product purchaser and is not transferable. This warranty excludes (1) labor and costs of labor for application or removal of any product or (2) any incidental or consequential damages, whether based upon breach of express or implied warranty, negligence, strict liability or any other legal theory. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

To consult with a Behr Certified Coatings Professional, call 1-800-854-0133 Ext. 2 (U.S.A. only).

WARNING! If you scrape, sand or remove old paint, you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN. PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a NIOSH-approved respirator to control lead exposure. Clean up carefully with a HEPA vacuum and a wet mop. Before you start, find out how to protect yourself and your family by contacting the National Lead Information Hotline at 1-800-424-LEAD or log on to www.epa.gov/lead.

WARNING! Sanding or scraping pressure treated lumber may be hazardous; wear appropriate protection.

A quality product that contains a mildewcide will assist in providing a finish that is resistant to mildew, provided that all existing mildew is removed prior to application. While this product does contain a mildewcide, it will not prevent mildew growth.

This product contains chemicals known to the state of California to cause cancer and birth defects or other reproductive harm.

EYES AND AVOID BREATHING OF VAPORS AND SPRAY MIST. WEAR EYE PROTECTION

Soap & Water Clean-Up

Spread Rate:

1st Coat 1-2 hours before recoat. Allow 72 hours for full cure.

DISPOSAL

For disposal of empty containers and unused product contact your household refuse collection service.
