**BEHR MARQUEE™ Exterior Flat**

- Tough, Non-Stick Surface Helps Prevent Dirt Adhesion
- Advanced UV Protection for Longer Lasting Color
- Resists Rain Shortly After Application
- Durable, Mildew Resistant Finish
- One-Coat Hide Guaranteed***
- Lifetime Guarantee*
- Low VOC, 100% Acrylic

**WHERE TO USE**

**PREPARATION & PRIME**

Use on properly prepared and cleaned coated and uncoated Exterior surfaces. Countersink nailheads, fill and sand smooth. Repair rust, loose or peeling paint. Repair imperfections and sand smooth. Wash off dirt, grease and chalk with detergent and/or powerwash. Remove mildew stains with a mildew stain removing product. Clean and sand new or weathered wood. Scuff sand or degloss smooth or glossy surfaces. Scuff sand or etch metals. Rinse and allow to dry. Caulk windows, doors and other openings. Allow new stucco, plaster and masonry to cure for 30 days before painting.

Use BEHR MARQUEE paint as a primer for repaired or uncoated surfaces. Multiple coats are required when: 1) Painting over uncoated, porous, heavily textured or repaired exterior surfaces. 2) Over woods that contain tannins and heavily stained areas (two primer coats are required). 3) Painting over uncoated, porous, heavily textured or repaired exterior surfaces. 4) Applying over heavy stains, which may require spot priming, multiple coats, and/or longer dry time. Two coats are also recommended for optimal durability.

**FOR TINT BASES – DO NOT USE WITHOUT THE ADDITION OF TINTING COLORANTS**

**APPLICATION**

Apply product on dry substrates when air and surface temperatures are between 35°-90° F (2°-32° C) and will remain between 35°-90° F (2°-32° C) for at least 4 hours after applying. Allow paint film to dry for at least 60 minutes prior to rain showers when temperatures are between 60°-70° F (15°-21° C) and 60-70% relative humidity. Lower temperatures, higher humidity or deep colors may increase dry time and/or rain resistance time. Stir paint occasionally. Intermix containers of same product to ensure color and sheen uniformity. On semi-smooth surfaces, use a high quality 3/8-1/2” nap roller cover, nylon/polyester brush or an airless sprayer (.015 -.021” spray tip, 60 mesh filter). On rough surfaces, use a high quality 3/4-1” nap roller cover. Do not thin if using a roller or brush; however, if using a sprayer and thinning is required, thin with water at a rate of no more than 1/2 pint per gallon. After 4 weeks, cured paint film may be cleaned with a mild, non-abrasive liquid detergent. Dry paint film is mildew resistant. When applying to vinyl, color choice must be the same color or lighter than the existing color. Do not use on floors.

**DISPOSAL**

For disposal of empty containers, unused paint and soiled rags, contact your household refuse collection service. Visit behr.com for painting tips, expert project advice and the perfect color coordination with COLORSMART BY BEHR®.

**WARNING**

If you scrape, sand or remove old paint, you may release lead dust. LEAD IS TOXIC. EXPOSURE TO LEAD DUST CAN CAUSE SERIOUS ILLNESS, SUCH AS BRAIN DAMAGE, ESPECIALLY IN CHILDREN.

PREGNANT WOMEN SHOULD ALSO AVOID EXPOSURE. Wear a NIOSH approved respirator to control lead exposure. Clean up carefully with a HEPA vacuum and a wet mop. Before you start, find out how to protect yourself and your family by contacting the National Lead Information Hotline at 1-800-424-LEAD or log on to www.epa.gov/lead.

**FIRST AID:**

If you experience eye watering, headaches or dizziness, increase fresh air. If properly used, a respirator (NIOSH approved for organic vapor with P series particulate pre-filter) may offer additional protection; obtain professional advice before using. A dust mask does not provide protection against vapors. Avoid contact with eyes and skin. Wash thoroughly after handling. Close container after each use. **FIRST AID:** If you experience difficulty in breathing, leave the area to obtain fresh air. If continued difficulty is experienced, get medical assistance immediately. In case of eye contact, flush immediately with plenty of water for at least 15 minutes and get medical attention; for skin, wash thoroughly with soap and water. If swallowed, get medical attention immediately.

**CAUTION:** KEEP OUT OF REACH OF CHILDREN - DO NOT TAKE INTERNALLY.
