- Resists Hot Tire Pick-Up
- Available in Custom Colors
- Durable, Textured Finish
- Fills in Hairline Cracks
- Resists Household Stains

No. 650 Gray
No. 655 Tan

**APPLICATION**

- Resists Hot Tire Pick-Up
- Available in Custom Colors
- Durable, Textured Finish
- Fills in Hairline Cracks
- Resists Household Stains

**WHERE TO USE**

On Interior/Exterior surfaces such as: Garage Floors, Driveways, Basement Floors, Porches and Pool Decks.

**WHERE NOT TO USE**

- Do not use on vertical surfaces or areas subject to hydrostatic pressure.
- Not for industrial use or areas subject to forklifts.

**PREPARATION† (Proper Surface Preparation is Required.)**

- All surfaces must be clean, sound, dry and free of any dirt, oil and grease.
- New and Uncoated Concrete or Masonry Surfaces:
  - Allow new surfaces to cure 30 days.
- Clean and etch surface using a product such as a muriatic acid etcher (read and follow all manufacturer’s label directions) to achieve a textured profile similar to 150 grit sandpaper.
- Wipe your fingers over the clean, dry floor to check for dust or powder. Ensure there is no residue on your fingers that may have been left from the etcher. If residue is found, rinse the surface to remove residue. Allow the surface to dry completely.
- For a painted surface in sound condition, use a product to clean and prepare the surface.
- If the coating is failing or peeling, use a paint stripper to remove old coating or scrape/sand down to a sound concrete surface.
- Smooth sand glossy surfaces.
- Scrub and spot etch any exposed concrete. Remove all dust with a damp cloth, allow to dry.

- Smooth sand glossy surfaces.
- Scrub and spot etch any exposed concrete. Remove all dust with a damp cloth, allow to dry.

**INSTRUCTIONS. 2 COATS REQUIRED. USE WITH 1/4” ADHESIVE ROLLER COVER.**

- For hairline cracks up to 1/8”, completely fill in with coating using a nylon/polyester brush and allow to dry completely prior to roller application.
- For best results, do not pour product directly on surface; always use a roller tray.
- Apply a thin first coat using a 1/4” adhesive roller cover or nylon/polyester brush.
- NOTE: The first coat will act as the base coat and it will not completely cover the surface by design. Avoid over application on the first coat.
- Apply in 4’ x 4’ sections. Begin with the roller in the center of the section and roll outwards in random directions.

**LIMITED WARRANTY**

Visit behr.com/warranty or call 1-800-854-0133 Ext. 2 for more information.

† WARNING! If you scrape, sand or remove old paint, you may release lead dust. LEAD IS TOXIC. Contact the National Lead Information Center at 1-800-424-LEAD or log on to www.epa.gov/lead.
