REV. 8/18

WHERE TO USE
• For use on properly prepared interior/exterior bare or stained wood surfaces such as: doors, windows, outdoor furniture, cabinets and trim.
• Not suitable for use on floors.

SURFACE PREPARATION† (The following steps are recommended for best results)
• For refinishing, remove all wax or cleaner build-up with wax stripper or degreaser, prior to sanding.
• Sand all surfaces in the direction of the wood grain to desired smoothness. Remove all dust from sanded surfaces and clean with tack cloth. The surface must be dry and free of old finishes in poor condition, paint, wax, grease, polish, dirt or other foreign matter.
• Do not use steel wool.
• If desired, apply BEHR® Wood Stain. Follow all label instructions.

APPLICATION
• Do not apply in direct sunlight or in temperatures below 55°F (10°C) or above 90°F (32°C).
• Shake can vigorously for 1 minute after mixing ball begins to rattle and often during use.
• Hold can 12 inches from surface and depress button fully.
• Move evenly across the surface with slightly overlapping strokes. On unfinished wood, apply sufficient material to seal open joints, edges and end-grain.
• Apply thin coats to avoid runs and sags. Recoat within 2-4 hours. At least 3 coats are recommended. Note: for exterior surfaces or for unfinished wood, 4 coats are recommended.
• After final coat, allow at least 24 hours before normal use.

NOZZLE CARE
• After each use, clear valve by holding can upside down and spraying until only clear gas comes out.
• If spray button becomes clogged, wear eye protection, wipe off button opening with lacquer thinner. Do not stick pin in spray button opening.

LIMITED WARRANTY
• Visit behr.com/warranty or call 1-800-854-0133 Ext. 2 for more information.
†WARNING If you scrape, sand or remove old paint, you may release lead dust. LEAD IS TOXIC. Contact the National Lead Information Center at 1-800-424-LEAD or visit www.epa.gov/lead.

WARNING Cancer and Reproductive Harm www.P65Warnings.ca.gov

IMPORTANT! STORAGE AND DISPOSAL: DANGER! Rags, steel wool and waste soaked with BEHR FAST DRYING POLYURETHANE may spontaneously catch fire if improperly discarded or stored. To avoid spontaneous combustion fire, immediately after use, place rags, steel wool or waste in a sealed water-filled, metal container. Do not store unused product inside the home. For disposal guidance, contact your household refuse collection service, fire department, county or state government control agency.

PLEASE SEE PRODUCT LABEL FOR SPECIFIC WARNINGS. WARNINGS MAY VARY BETWEEN PRODUCTS AND OR COLORS.
